

# Nano Core / Nano Link Site controller

ROBUST  
MODULAR  
INNOVATIVE

## **Innovative**

Our Nano Core / Nano link site controller uses the latest technology and industry standards that are also used in IoT.

## **Modular**

The modular design of Nano Core / Nano Link is flexible and has a low TCO because modules can be replaced easily and there is no need to replace the complete unit.

## **Robust**

The site controller application is a proven solution that is the result of over 30 years of incremental improvements.

# NANO CORE / NANOLINK

## + PRODUCT

- New generation site controllers
- Small footprint
- Easy installation
- Secure VPN connection

Nano Core / Nano Link is the latest generation site controllers of Madic Group combining state of the art technology and robust software.

It offers a wide variety of interfaces of forecourt devices like pumps, tank gauges and price signs. Optionally there are 8 digital I/O's available and interfaces to POS systems.

- Scheidt & Bachmann T10, T20
- Schlumberger EPS3, EPS5, COCA, WWC
- Nuovo Pignone
- EIN DM1VP, JKR
- Satam Eedac 82D, Sev2
- Tokheim Premier, TCSA
- Kienzle ER3, ER4
- Adast
- Micon
- Petrotec CEM03
- Somopro
- EPCO
- Petposan
- Mechanical pumps

### PRICE SIGN INTERFACES

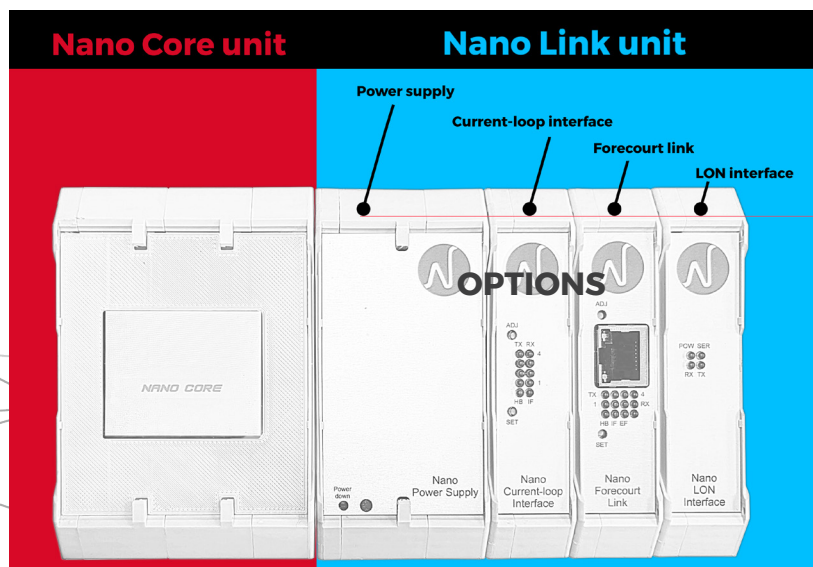

- Dilitzer PWM
- Neorec
- MLI
- Appadiil
- Abel
- Splen
- NIM
- Satam MSD30
- Kubalt
- IFSF LON
- Bever
- SINT
- Q-Lite
- Tokheim

### LEVEL GAUGE INTERFACES

- Microlec MT-1
- Veeder root
- Petrovend
- Hectronic
- Emco Weaton (Tuthill)
- MTS
- CMS
- Tacos (Kathöfer)
- Rochester LPG
- BG Gas
- IFSF LON
- OPW

### PAYMENT TERMINAL & OTHER INTERFACES

- CCV
- Atos Worldline
- Microlec POS
- TLM EvoPOS
- Fuel delivery printer
- Fiscal register (Poland, Hungary, Greece, Russia)
