

MPT-3 EV x EV Payment Terminal

ROBUST
COMPLIANT
PARTNERSHIP

Robust

The terminal has a robust housing with an ultra-resistant coating. We use only industrial-grade electronic components.

Compliant

With this payment solution for EVs, you are compliant with the EU Directive on universal payment methods for EVs (EU/2023/1804)

Partnership

As your partner, Madic Benelux provides you with the advice you need to make the right decisions for your EV payment solution.

MPT-3 EV X TERMINAL

+ PRODUCT

- Universal
- Ultra-resistant
- Flexible

EXTREMELY FLEXIBLE

We offer you a carefully designed terminal:

- You start with our universal housing.
- You can choose the colour of the LEDs and the housing.
- You choose the payment terminal and CPO application. In doing so, you benefit from our expertise in EV technology.
